

## EUROPHARMA: BEC 300 BLISTER LINE FOR THE CONTRACT PACKAGING OF NUTRACEUTICALS

“ In order to be able to provide our customers with an optimum pharmaceutical packaging service, the most important factors for us as a CMO are the availability of format parts at short notice, high productivity and economical overall costs. Uhlmann as a partner and the fast, reliable BEC 300 blister line support us in meeting these requirements.

Jacek Kiedrowski, Chief Technologist,  
Europharma Alliance

### THE CHALLENGES

- Strong increase in demand leads to expansion of production capacities
- Short-term procurement of format parts
- High performance and productivity
- Economic total cost of ownership

### THE SOLUTION

- BEC 300 blister line**
- Complete system for packaging of solid products in blister and folding boxes
  - Output of up to 300 blisters per minute
  - Fast format changes in under 30 minutes
  - Simple operation, high degree of reliability

### Format part competence

- Short delivery times for high-quality original format parts

### RESULTS

- **High efficiency and productivity** due to time-saving product changeovers
- **Enthusiastic operating personnel**
- **Economic operating costs**
- **Excellent customer service** because format part availability also enables production starts at short notice

**Europharma Alliance**

According to its own information, EuroPharma Alliance Sp. z o.o. is the fastest growing contract

manufacturer of dietary supplements in Poland. At its production site in Rzeplin, south of Wrocław, around 110 employees produce and package both pharmaceuticals and nutraceuticals. Since the company's foundation in 2007, Europharma has been continuously expanding its range of professional services for contract manufacturing.

## BEC 300: GREATER FLEXIBILITY FOR SMALLER AND MEDIUM-SIZED BATCHES

### POWERFUL

Powerful, complete system for packaging small and medium-sized batches of up to 70,000 packs

### FLEXIBLE

Greater flexibility in dynamic markets thanks to processing of all common solid formats and quick format changes in less than 30 minutes

### SAFE

Maximum safety and performance thanks to reliable technology and simple, intuitive operation

### FAST

Short delivery times and swift commissioning for unforeseen requirements

### DIGITAL

High level of efficiency thanks to seamless integration into fully automated production environments
