

EVEN MORE PRECISION, EVEN MORE SUSTAINABILITY: BOTTLECHROM II

Are you looking for a more sustainable way to pack tablets and capsules into bottles? Is it time the inspection system of your IBC 120 or IBC 150 bottle line had an upgrade? Then, the BottleChrom II is the solution that will take your efficiency up a level!

NEW!
FOR 2022

WHAT WE OFFER ...

- An upgrade for your bottle line with the BottleChrom II color camera system
- An inspection system that checks tablets and capsules for color, shape, presence and breakages
- Improved precision fault detection that reduces rejection rate by up to 70%
- Optional: Targeted removal of individual tablets for maximum efficiency
- Compatible with the IBC 120 or IBC 150 bottle lines

... AND THE BENEFITS FOR YOU

- High productivity in the pharmaceutical packaging process
- Efficient, resource-saving packing of solids into bottles
- Improved process reliability
- Improved sustainability and increased efficiency for your bottle lines
