

# Quality is irreplaceable – you can rely on our original spare parts

As quickly as possible and always top quality: With Uhlmann as a partner, you will receive spare parts for your packaging lines in no time at all. Our expert team, with concentrated manpower and extensive expertise, understands your system right down to the smallest detail. With just a bit of information, they can identify the correct components and add important spare parts. If necessary, spare parts will be delivered pre-assembled. In an emergency, we can even ship the checked parts on the same working day.

## Interested?

We'll be happy to put together various system- and part-specific spare parts packages, all tailored to the runtime of your packaging lines.

## Additional services

- 1. Spare parts management:** Spare parts inventory individually tailored to your machinery, production and maintenance.
- 2. FMECA:** We analyze all the components in your system with regard to probability of failure and draw up a strategy for spare parts inventory and maintenance.
- 3. E-Commerce:** You receive information of availability in real time and of current prices. Order your spare parts easily online. Seven days a week, 24 hours a day.
- 4. PartsManager:** The electronic spare parts catalog with various search functions visualizes your machinery 1:1 in the system. Your PartsManager is directly integrated into Uhlmann E-Commerce.

## Benefits for you

- High level of production reliability and maximum machine availability.
- Original spare parts from Uhlmann at top quality.
- Simple ordering and instant processing: Dispatch of spare parts in stock within one working day.
- Rely on our experts or PartsManagers to identify the right spare parts for you.
- With spare parts management from Uhlmann, you can optimize your parts inventory and save money.
- With the FMECA service package, you can eliminate future weak points today.
